A laptop stolen from a UW-La Crosse student this week-end might not be terribly useful depending on the thief. Police say the 21 year-old victim's from Jordan. The thief grabbed two laptops, nearly two grand in cash, title to the victim's car and his passport from a broken safe while the victim lay sleeping. The one laptop may wind up in the dumpster, though; characters on the keys are all in Arabic. Police think they may have a suspect.
