8 Sparta residents and possibly 5 more could face heroin drug charges after police raided two homes there last weekend.

Sparta police had conducted an 18 month investigation into the trafficking of the drug and decided to bust the homes last Saturday.

Those arrested range in age from 20 to 30 years old and they face charges from conspiracy to deliver heroin and trafficking to maintaining a drug house. 5 others were busted in the raids though it's unsure as to their charges at this time.
