

Area women are grabbing hammers and power tools to help build a house in Viroqua. They are joining the La Crosse Area Habitat for Humanity in building the new home at 421 Willow Street. La Crosse County Board member, Marilyn Padretti, got 11 county employees together to go the job site Saturday....the 2nd year in a row they have helped.

The 3rd Annual Women Build home built at 1733 Kane Street in La Crosse was finished last year. Ka Xiong and Hang Yang and their five children now have a safe, decent, affordable home of their own. That home was funded by the Women Build teams that put their time and talents to work, and by a generous matching grant from The La Crosse Community Foundation.
