

They range from kindergarten teachers to 4th grade teachers and teacher assistants. Just some of the positions that will become open in June.....just in time for the new school year. The positions come from 16 resignations and retirements the Lacrosse School Board accepted last night. And as the board has accepted 59 so far this year....filling the open spots will take a little time.

Superintendent Jerry Kember says he expects between 40 and 50 retirements every year since Lacrosse does have a senior staff. And he admits he does expect more before the year's out due to the uncertainty coming out of Madison.

An upcoming recruitment fair will be attended by board members....and the question will be... does Lacrosse have what future employees want?! Kember says yes they do.
