

Lansing Bridge Closed

Wednesday, 17 August 2011 20:01

Detour at De Soto...

The bridge over the Mississippi between De Soto and Lansing has been closed for emergency repairs. The Iowa D-O-T has found a crack in a floor beam under the bridge deck, during a regular inspection. The closing may last about two or three days. That means people who normally use that bridge will have to go about 30 miles out of their way to cross the river, either at La Crosse or Prairie du Chien.
