

The La Crosse Tribune reported Sunday, that Governor Walkers BudgetRepair Bill cost La Crosse County \$300 thousand. Board member, Bill Feehan says.....wrong. It actually saved the county money.....and it all comes down to easy math. Feehan, says if you take the Gross Budget Savings from employees contributions Wisconsin Retirement System at \$2.9 million and subtract \$1.4 million from the Major 2012 Budget Challenges.....you come up with a net gain of \$1.5 million for La Crosse County. And not only that.....

Feehan says to say the governors budget bill was not good for Lacrosse County....is just not accurate.
