

Wisconsin became the 49th state that allows residents to carry concealed weapons a month ago. And there, still, are no rules in place at the Lacrosse Center when it comes to carrying concealed weapons. No problems have been reported there.....but the center board needs some direction says Art Fahey.

The Lacrosse City Council does not meet until next week to consider a veto override of Mayor Matt Harter's decision to veto the concealed carry ordinance....and Fahey says the board wants some direction now. They meet today at 4pm.
