

Central High School Wants New Commons Area

Monday, 19 December 2011 20:44

Central High School in Lacrosse wants to change the way the east side entrance looks and maybe asking for your help in making it happen. A presentation was shown to the school board Monday night, which would turn the commons area into a more desirable space for students, staff and visitors.

The \$180 thousand project would include a new student store and a small branch of Altra Federal Credit Union. The financial breakdown would be \$60 thousand spread into 3 entities. They include Central High School fund raising.....Central Booster Club fund raising and the capitol improvement budget.

Also included would be community partnerships, community/family donations and wall tile sales. Fundraising will go until March with a tentative ground breaking set for the summer.
