

The La Crosse County Board will spend \$5000 towards a study of the I-90 Exit 3 corridor, but not every one on the board agreed with the plan. Gerald Sebranek was one of the 6 no votes and explained to the board.....he was voting on behalf of his constituents.

The board passed the measure on a 23-6 vote. They join the City of La Crosse and the La Crosse Area Planning Committee in contributing the \$49 thousand needed for the study.....which will begin next month.
