

Representative Steve Doyle will be hosting a community meeting at the Holmen High School Commons tonight from 6 – 7:30 pm on the proposed CapX2020 electric transmission project. The public is invited to learn more about the project and to ask questions.

The meeting will include a presentation by Xcel Energy and Dairyland Power Cooperative on the Hampton to Rochester to La Crosse transmission line application. The Citizens Energy Task Force will be presenting in opposition to the line. Representatives from the Department of Transportation and the Department of Natural Resources have been invited to answer questions from the public.

Doyle says he is working with the Public Service Commission to allow the public to be heard on CapX2020. Comments can be submitted at the meeting which he will turn over to the PSC to be put into the official record at the PSC.
