

(AP) Wisconsin Gov. Scott Walker says he voluntarily agreed to the Milwaukee County district attorney's request to meet with him about a secret investigation that so far has led to charges against five of Walker's former close aides and associates. Walker made brief comments Monday after a public appearance in Waukesha. They were among his first following an announcement Friday that he would meet with District Attorney John Chisholm. Walker said the meeting date is up to the district attorney to announce. The investigation has created a potential vulnerability for Walker, who faces a potential recall. Walker says his lawyers are examining thousands of emails his campaign has turned over to the DA. He said he hired the lawyers because it would take him too much time to do that work.
