

Fiery, Cheesy Mess On I-90

Monday, 29 March 2010 11:35

Fire, smoke, and lots of melted cheese...

They were all a result of a truck crash on I-90 in Winona County this morning. A semi carrying a load of cheese crossed the median and partly went over a bridge, shortly after 6:30 a.m. The driver of the semi...Glen Boyer of Le Mars, Iowa...had minor injuries after the accident. The fiery crash caused the Minnesota State Patrol to shut down most of the traffic on I-90 for a couple of hours.
