

Of the 72 counties in Wisconsin, La Crosse County was ranked 23rd in Health Outcomes, 4th with Health Factors and 5th highest in the category of health behavior rankings. All good news says Catherine Kolkmeier, Director of the La Crosse Medical Health Science Consortium.

The La Crosse Medical Health Science Consortium, a collaboration of healthcare and education institutions in the Coulee Region, has mobilized dozens of organizations and individuals in the region to focus on improving health behaviors, with an ultimate goal of La Crosse County being the healthiest in the state by 2015.
