

A La Crosse man taken to a Madison burn unit in critical condition on Sunday night is now upgraded to serious...

John Bubbers is at the U-W Burn Center, following an explosion in his parked van outside a Kwik Trip on French Island. Fire investigators say fumes from a propane tank inside the van were touched off by a passenger lighting a cigarette. Bubbers had gone to the Kwik Trip to exchange the propane container. He received third-degree burns in the accident, and the passenger had lesser injuries.
