

It's certainly not the first time a downtown La Crosse business has had a window broken. But one of the first times police have rounded up a video of the perp who did it. La Crosse police are looking for the guy that appears in a video that they've posted on the city website and on the police Facebook page. They need help identifying the guy. They say he punched out the window at Three Rivers Outdoors. Someone recorded it on their phone and handed the video over to the police.

## Police Asking for Help Identifying Window Breaker
