

## Bridge Inspections Start Today In Winona

Monday, 18 June 2012 09:24

---

If your traveling on Highway 43 over the Mississippi River in Winona this week, expect to run into lane closures. It's that time for annual bridge inspections. Single lanes will be seen all week from 8am to 6pm and the DOT will have flaggers out letting you know where to go. These inspections take place annually with in depth inspections occurring every other year.
