

UWL Parking Ramp About 4 Months From Completion

Tuesday, 05 February 2013 10:00

The current parking crunch at U-W-La Crosse may only last another four months or so.

June is the target date for finishing a 500-space parking ramp now being built across the street from Oak Grove Cemetery, at 16th and La Crosse Streets. But since the construction took away some spaces temporarily, short-term parking areas had to be developed nearby. The ramp will be ready for paying customers by fall. Part of the building will serve as headquarters for the campus police department.
