

A bone marrow transplant saved the life of Robin Roberts, co host of ABC's Good Morning America show. Now, Gunderson Lutheran wants to let people know how easy of a process it is to donate. We asked Dr. Wayne Bittner, who can donate?

[CELLS 4 is unavailable]

Dr. Bittner says Roberts is a brave woman and nobody can argue that. She's been through breast cancer, and she's now recovering from an extensive bone marrow transplant from just 6 months ago...and she made it back on TV.
