

Why wait a month? Might as well go smoke-free now...

That's the attitude at South Lanes in La Crosse, banning indoor smoking as of today, instead of holding off until the state law takes effect July 5th. South Lanes owner John Givens says bowlers could still have a smoke outside...but they might risk giving up their turns if they take too long. Givens tells us it may take about a month to wash down the walls and windows, to eliminate years of smoky smells in the bowling area.
