

Holmen Crash Investigated As Students Mourn

Monday, 19 July 2010 11:31

It may take several days for state troopers to figure out exactly what happened in Sunday's fatal crash between a La Crosse County squad car and a second car on Highway 35.

Patrol Lieutenant James Lind says the first report is usually due within 10 days of an accident. Sixteen-year-old Brandon Jennings, a Holmen High School student, died in the collision. Lind says it hasn't been determined yet if Brandon had a green light as he entered 35, just as the squad car was driving north with flashing lights and a siren on.

Meanwhile, the Holmen High School library is open until 2 this afternoon, so students can talk to counselors about the crash.
