

Some convenience stores and restaurants in the area need to clean up their

act. Literally. And you can now find out which ones fare better than others when it comes to public health inspections. The La Crosse County Health Department has now posted online, inspection reports for over 500 establishments in the area. Jim Steinhoff explains why they chose to make them easily available.

[\(Click for Audio\)](#)

He says they have always been available to view...you just had to go in to the department to see the reports. You can also check out how your favorite school, pool and tattoo parlor are doing as well.
