

Leaf Trucks Coming Monday

Friday, 04 October 2013 11:48

You can put this in the category of, "you know it's autumn when..." In this case, it's the city of La Crosse picking up leaves curbside. Starts on Monday. Collection crews and their giant leaf vacuums will start on the northside of the city and work south. the plan is to go through the city four times, although early winter snows could put a damper on that. Once a leaf pick-up crew goes through once, they warn it could be two weeks before they make it back.
