

Viagra on public employee prescription plans? They had it in Milwaukee schools and want it back. La Crosse city employees get Viagra, Cialis, Levitra and other erectile dysfunction drugs on their plan. We asked mayor Matt Harter if those drugs should stay in the plan considering the city's financial straits. The mayor says the human resources department is evaluating all such expenditures. Harter says his aim is to make the city health plan resemble those that are available in the private sector.
