

K2 Ban Moves Forward

Tuesday, 31 August 2010 21:25

Synthetic cannabis, watch out; La Crosse has your number. A city council committee this week has approved a ban on the sale, possession, and use of synthetic marijuana. It goes by names like K2 and Spice but generally is considered to be similar in nature to marijuana. Municipal prosecutor Pete Kissen says the stuff is poison and, because it's unregulated, poses a significant danger to La Crosse and therefore needs to be regulated at least until the state of Wisconsin enacts a ban statewide.
