

Petition Drive Begins to Preserve City Land as Park

Tuesday, 20 December 2011 17:05 -

A petition drive has started to keep developers away from a big swath of parkland in La Crosse.

Tim Kneipp, a local biking enthusiast, has started the online petition drive to urge city council members to designate the blufftop experimental farm as park land and resist the temptation to allow development on some of the land. The petition drive just started yesterday at SignOn.org. And the signatures have been coming quickly

La Crosse purchased the 160 acre tract of land near Hixon Forest nearly fifty years ago from the UW system.
