

Will There Be A Statewide Cell Phone Ban While Driving

Tuesday, 20 December 2011 17:21 -

A proposal floating around the Wisconsin Assembly would place a ban on all cell phone usage in vehicles statewide. It comes on the heels of the National Transportation Board urging the same thing. Democratic State Assemblyman, Steve Doyle, does have much faith in the bill.

A year ago, Kenosha Democrat Peter Barca sponsored the Assembly version of the current state law that bans texting while driving. That was a bi-partisan effort at the time. Barca is also behind the cell phone ban bill as well.
