

Garbage Task Force Soon to Make Recommendations

Friday, 10 February 2012 07:33 -

How about getting a separate bill in the mail for garbage pick-up? That's apparently among the coming suggestions from a task force on garbage and recycling. The Onalaska and La Crosse committee is getting close to making some formal recommendations. And then, says county sustainability coordinator, Nich Nichols, councils in both cities will have to act pretty quickly due to soon-to-be-expired garbage pick-up contracts

Other local municipalities may also get involved in the garbage changes in order to streamline the entire county but, so far, just the cities of La Crosse and Onalaska are involved.
