A rural Kendall man is clinging to life today after being pinned by a farm tractor. It happened just before 7 last night in the Town of Wellington in Monroe County. The Sheriff says the family of a 69 year old man went looking for him after he had not returned home. They found the man pinned under a farm tractor that had flipped over. The man had to be carried out of the woods by hand by the Ontario Fire department members. He was transported to Gunderson Hospital by Med Link Air with life threatening injuries.
