

170 Sick From Swimming In Lake Wazee

Thursday, 12 July 2012 10:00 -

What started out as a couple of people calling Jackson County saying they got sick from swimming in Lake Wazee last week, has turned into something they have never seen before. Public Health Nurse, Christine Hovell, explains.

The numbers of people sick.....at least 170. She says the lake is closed until more testing can be done next week. In the meantime, if you are fishing or scuba diving in the area.....she says wash your hands before and after the activity.
