

More Work On Losey Coming Friday Night

Thursday, 23 August 2012 16:06 - Last Updated Thursday, 23 August 2012 16:07

Tonight, temporary 24 hour paving operations will continue for the resurfacing project on Losey Boulevard from La Crosse Street to Market Street.

Operations include installation and compacting of asphalt pavement overlay. The Board of Public Works is allowing construction activities outside of the standard noise restriction Ordinance which is 7:00 P.M. to 7:00 A.M. The nighttime work will help to shorten the overall project schedule, and provide for safer construction operations. All motorists should exercise caution when travelling in the area and be aware of work crews. Weather permitting, it is anticipated that the total duration of the 24-hour work will be for one night only.
