

It's been 18 months now since a veterans court and mentor program started in La Crosse County.

The results so far? WIZM'S Dan Deicher answers that.

61 veterans have gone through the mentor program in that time with 6 going through the court system. Not bad for not knowing what the future of the program would be.

Director, Thom Downer, says as more and more vet's come back to the states, more programs like this one in La Crosse will be needed. Racine County starts their own system soon.
