

Because of its 103 year history as an Army installation training America's troops, unexploded ordnance, or UXO, has been found at Fort McCoy over the years. What has been found recently?

[\(Click for Audio\)](#)

Safety Manager, Randy Eddy, says the best defense against UXO is to be vigilant, report it if you see it and practice the three R's of explosive safety - recognize, retreat and report. A word to hunters who plan on going out to the fort this year to hunt.
