

Holmen Library Still Waiting To Find Land For Bigger Building

Tuesday, 18 December 2012 10:28 -

The clock is ticking down toward the end of the year, with little progress made lately on some village improvement projects in Holmen.

New village offices and an expanded library are being proposed for village-owned land on the Holmen Kornfest grounds. But county library director Chris McArdle Rojo doesn't know when construction on new buildings could happen. The Holmen library is located in a former grocery store. The village talked about moving the library into a church near the middle school, but that plan fell through about three years ago.
