

Area Road Update 7am

Thursday, 20 December 2012 06:53 - Last Updated Thursday, 20 December 2012 06:55

Roads in the area are being reported as snow covered and slick so far this morning. I-90 from Tomah to La Crosse is reported as snow covered and slick in spots as is Highway 16 from Sparta to La Crosse.

Highway 53 into La Crosse has quite a bit of slow traffic this morning and 53 to Galesville is reported as very slick. County Highway B in Monroe County has already had several areas of drifting snow onto the highway.

Road crews in the area have been out for about 3 hours now.....there main concern for the rest of today is blowing and drifting snow which could, at times, produce white out conditions.
