

Truck tows and triple tickets will get a vote this week in La Crosse. The city council will decide on a plan to allow towing of cars parked on the wrong side of the street during clean-up of a big snow. The measure would also allow tripling of alternate side parking fees during snow events. Both would be a big help on some problem streets, says city council member Bob Seaquist

Seaquist thinks both the ticketing and the towing measure will impact only a very small minority of drivers in the city.
