

Local Flu Line Now Open

Friday, 11 January 2013 09:59 - Last Updated Friday, 11 January 2013 10:01

Nurse advisors at Gundersen Lutheran have seen a 25% increase in call volumes. To help provide flu information, a special influenza information line has been created.

The line.....775-0364..... is up and running. Patients can listen to recordings on influenza information and get answers without having to call their healthcare provider's office.

Callers can press zero at any time to speak to their Gundersen Lutheran healthcare provider's office or the Nurse Advisors. The nurse advisors can help patients determine if they can care for their illness at home, or if they should be seen by a healthcare professional.
