

Cougar in Juneau Prowls, Consumes

Friday, 18 June 2010 04:37 -

You better believe they're talking all about the cougar in Wonewoc. The little town in Juneau county is right about where a cougar has mauled its way through a couple horses, two sheep, a cow and several deer so far. The DNR and US Fish and Wildlife are apparently trying to track the big cat. There have been no reported attacks on pets or people at this point.
