

The Mayo Clinic is concerned about an eight fold increase in melanoma skin

cancer among young women. And it's from tanning bed usage.

[\(Click for Audio\)](#)

Mary Duh with Mayo in La Crosse says going to a tanning bed just once increases your chances of getting melanoma by 20 percent. A state Senate committee in Illinois has already approved a plan that would keep anyone under 18 out of a tanning salon, even if they have permission from their parents or other adults.
