

Body Found In Tugboat After Accident At Dam

Wednesday, 03 July 2013 15:13 - Last Updated Wednesday, 03 July 2013 19:25

The body of a missing tugboat crewman has been discovered inside the flooded boat, at Lock and Dam 7 near Dresbach...

Twenty-two-year-old Tyler Trussoni of Genoa had been employed by Brennan Marine for three years. The tugboat lost power early Wednesday, and went through roller gates at the dam. Two other workers on the boat were able to get out. Winona County Sheriff Dave Brand says the investigation will continue, to find out why the boat's motor stopped. The river will remain closed around Lock and Dam 7 for now.
