

Soldier Who Died At McCoy Identified

Thursday, 16 September 2010 11:37 -

We still don't know the cause of death for a 19-year-old soldier who died last weekend at Fort McCoy.

The military is still investigating what happened to Private Aaron Clawson of Waterloo, Wisconsin, who was attending monthly training as a member of a company out of Madison. The fort had not given Clawson's name until today, and military sources say Clawson died in a training accident.
