

The Wisconsin State AFL-CIO, working families and a local legislator are calling on Congress to, again, approve a one year emergency extension of unemployment insurance.

Never before has Congress allowed unemployment insurance to expire when so many people are looking for work but unable to find jobs. But instead of focusing on working families, the newly-elected GOP Congress is pushing to pass tax cuts for millionaires by extending the Bush tax cuts for those making over \$250 thousand.

Representative Ron Kind voted to allow the extension of benefits.....which failed to pass last week.....he also voted to voted to permanently extend tax cuts for middle-income families and small businesses
