

He admits to state agents that he's downloaded about 50 movies containing child porn...

That's some of the evidence being used against Jonathan Morgan of Necedah, now charged with possessing nine counts of child pornography. The state justice department charged Morgan this week, about a month after a search of computers and files at his house. Investigators say Morgan has watched porn involving children around five years old. He's in the Juneau County Jail, with bond set at 35-thousand dollars.
