

WTC Cuts Programs

Wednesday, 19 January 2011 11:22 -

4 programs have been suspended for a year and another has been done away with at Western Technical College. It's all part of a cost savings measure and looking at where WTC can save money.

WTC President, Lee Rasch, says the suspended programs include dental hygienist....instructional assistant....interior design and mechanical design technology.

The WTC Board also voted yesterday to close the child center by the fall.....with the hopes a non for profit organization would manage the facility to avoid closure.
