

WTC Cuts Are Good

Thursday, 20 January 2011 12:20 -

They suspended programs including dental hygienistinstructional assistant....interior design and mechanical design technology. And for Western Technical College....it's a good thing according to their President.

Lee Rasch says they have suspended programs in the past with good results. The reason for it? Building a stronger curriculum with those programs and a huge cost savings for the college.

The suspensions will only last one cycle...and Rasch strongly believes that they will find the same, if not better, result from temporarily shutting down the 5 programs
